

Inter Office Memo

Home Computer Division

To: Distribution

Ref: 587

From: Mike Klimowicz *MK*

Subject: FCC Certification for the Taiwan 1200XL

Date: 3-31-83

FCC Class B certification was granted for the Taiwan 1200XL on Tuesday, March 29, 1983. HCD will be receiving a copy of the grant within three weeks.

The FCC representative also reiterated that they require at least six weeks after receipt of application for issuance of a grant of certification. This, coupled with two weeks test time and application construction, yields eight weeks from receipt of hardware at HCD to grant of certification. Particularly in the case of new computers which are subject to more intense scrutiny by the FCC, it will be difficult to improve upon these lead times with a plurality of new computers.
